

13C5 Adverse Weather Capacity

Description

Improve capacity at core airports during adverse weather. FY13 Target: Quarterly reports to the ATO Officers Group and FAA Performance Subcommittee on progress and next steps.

Commentary (03/2013)

The adverse weather metric development plan is in place. We are working on data source analysis and completed reviewing existing weather metrics and NAS metrics in the context of adverse weather. Metrics identified and further analysis underway to define: Weather constraints, threshold events, and impact severity.
